Active member of the training and volunteer team, where I contributed to the creation of fundraising campaigns, volunteer recruitment activities, and recreational events.

PROFESSIONAL PROFILE

I'm a Frontend developer specialized in technologies such as React, Redux, Bootstrap, CSS, Tailwind, Vue, Next.js and JavaScript. Additionally, I am studying and perfecting myself in UX/UI design, where creativity meets functionality. My experience in human resources has provided me with strong communication and people management skills. Furthermore, living in Canada for a few months broadened my horizon by exposing me to various cultures and languages, an experience that I deeply value.

I consider myself a responsible person committed to constantly expanding my knowledge and skills in this constantly evolving field. Valuing continuous learning and personal growth, I am always willing to acquire new skills.

WORK EXPERIENCE

- **Frontend Developer and Junior UX/UI Designer**

Ambassadoria, Aug 2023 - Nov 2023

A member of the Frontend and Junior UX/UI development team at Ambassadoria, contributing intuitive and appealing solutions. Specializing in user interface design, utilizes Figma, TypeScript, and Next.js to enhance the continuous development of the platform.

- **Front-End Developer**

No Country, Sep 2023 - Sep 2023

As a member of the Frontend development team, used technologies such as React, Next.js, and React Hook Form to create exceptional user experiences. Collaborated on the design of the user interface in Figma.

- **Human Resources Administrator**

Sanatorio Anchorena, Aug 2020-Sep2022

Led the management of nursing staff, overtime calculations, and personnel selection. Managed contracts, records, and coordinated the Covid Vaccination Plan. Provided administrative support to the Teaching department.

PROJECTS

- **PetBook**

Henry, May 2023 – May 2023

I contributed to a non-profit website dedicated to pet adoption. I used JavaScript, React, Redux, and Tailwind CSS for the Frontend development. It includes payment gateways through MercadoPago and Google authentication.
