Link: [Certificate](#)

- **Fluent in Spanish.**

VOLUNTEERS

- **Volunteer at Techo NGO**

Active member of the training and volunteer team, where I contributed to the creation of fundraising campaigns, volunteer recruitment activities, and recreational events.

PROFESSIONAL PROFILE

I'm a Frontend developer specialized in technologies such as React, Redux, Bootstrap, CSS, Tailwind, Vue, Redux and JavaScript. Additionally, I am studying and perfecting myself in UX/UI design, where creativity meets functionality. My experience in human resources has provided me with strong communication and people management skills. Furthermore, living in Canada for a few months broadened my horizon by exposing me to various cultures and languages, an experience that I deeply value.

I consider myself a responsible person committed to constantly expanding my knowledge and skills in this constantly evolving field. Valuing continuous learning and personal growth, I am always willing to acquire new skills.

PROJECTS

- **Mate Speak**

No Country, Sep 2023 - Sep 2023

Frontend team member at Mate Speak, a language learning platform. I used React, Next.js, and React Hook Form to create exceptional user experiences. I collaborated on the design of the user interface in Figma.

- **MeSumo**

No Country, Aug 2023 - Sep 2023

Frontend team member at MeSumo, where I developed an MVP using JavaScript, React, and Vue. I collaborated closely with the UX/UI team in Figma and managed our work on GitHub.

- **PetBook**

Henry, May 2023 - May 2023

I contributed to a non-profit website dedicated to pet adoption. I used JavaScript, React, Redux, and Tailwind CSS for the Frontend development. It includes payment gateways through MercadoPago and Google authentication.

- **Videogames**

Henry, April 2023 - April 2023

It's a Single Page Application using technologies like React, Redux, Node, Express, and Sequelize. I implemented basic styling and design resources to enhance the user experience (UX/UI).

WORK EXPERIENCE

• Freelance Frontend Developer and Junior UX/UI Designer

Ambassadoria, August 2023 – Actual (Argentina)

I specialize in user interface (UI) design and user experience (UX) optimization, providing solutions that blend intuition and visual appeal. I make use of Figma to create meticulous designs, interactive prototypes, and user flows. Furthermore, I actively collaborate with the Front-end team, applying cutting-edge technologies such as TypeScript and Next.js, with the aim of contributing to the development and ongoing improvement of the platform.

• Human Resources Administrator

Sanatorio Anchorena, August 2020–September 2022 (Argentina)

Management of nursing staff.

Overtime hours calculation.

Personnel selection for the nursing department.

Creation, management, and control of attendance sheets.

Management of employee onboarding and offboarding, maintaining updated records.

Handling of contracts and personnel files, ensuring compliance with legal and administrative requirements.

Organization and management of the COVID Vaccination Plan at the hospital.

Providing administrative and coordination support to the Teaching Department.

• Administrative Secretary

Estudio Kremer & Asociados, July 2018 – September 2020 (Argentina)

Agenda management and meeting coordination.

Drafting agreements and preparation of legal correspondence.

Handling phone calls, emails, and correspondence.

Invoicing and petty cash administration.

Filing and organization
